

NEWSLETTER

Back in April, we hosted our Annual User Meeting, and what an incredible day it was!

To everyone who attended – thank you. Your engagement, questions, and feedback made the event truly meaningful. We appreciate you taking the time to connect with us and with each other.

Special thanks to our speakers and internal team who made the event run smoothly. We're already gathering insights from the meeting to improve our products and services.

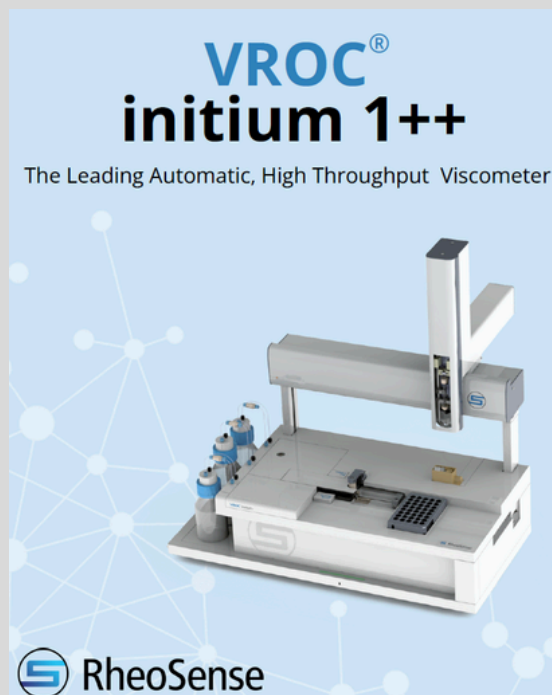

Expanding Our Portfolio: Proud to Partner with RheoSense

We are excited to announce a new strategic partnership with **RheoSense, Inc.**, a leader in high-performance viscometry technology.

RheoSense's revolutionary VROC®-powered instruments measure viscosity with extremely small sample volumes and at very high shear rates – providing reliable, repeatable data that is critical for R&D and quality control in industries like pharmaceuticals, chemicals, and biotech.

Under this partnership, CoreTech will be supporting RheoSense sell and service their products right here in Singapore. This means local customers can now enjoy faster support, shorter response times, and on-site expertise.

Our team is trained and ready to ensure a seamless experience. We look forward to bringing RheoSense's "Simply Viscosity" advantage to your operations.

VROC initium 1++ is the only automatic viscometer that measures true viscosity with the highest accuracy and repeatability.

It's superior resolution is revolutionizing characterization of Newtonian and non-Newtonian samples coupled with sample retrieval and recovery!

Warm Welcome to Our Newest Team Members

Hi everyone,

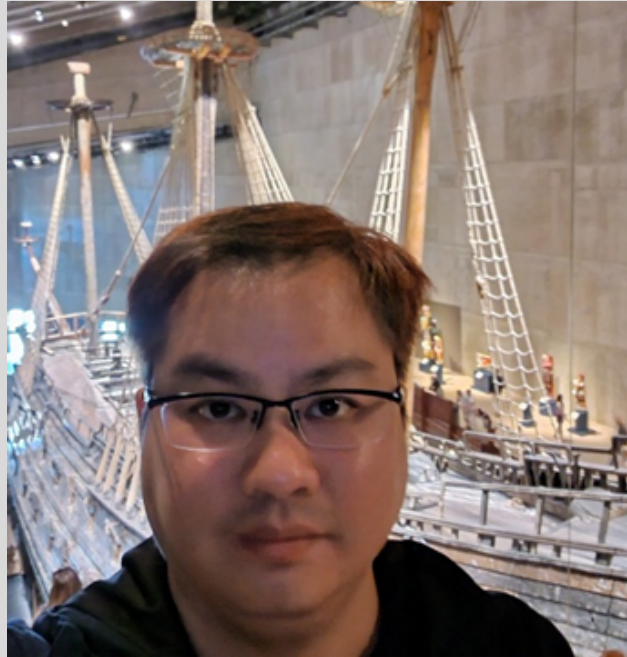

I'm CK Chia, and I'm excited to embark on this new chapter with CoreTech Singapore. Throughout my sales journey, I've had the opportunity to work closely with diverse customers, understand evolving market dynamics, and deliver solutions that create real business value. Building long-term partnerships, managing complex technological needs, and driving sustainable revenue growth have been central to my work.

In my experience, trust, consistency, and a deep understanding of client needs are just as important to successful sales as hitting targets.

I look forward to bringing my experience to the team, learning from everyone here, and helping strengthen CoreTech's market presence. Together, I hope to explore new business opportunities across our growing range of products and deliver impactful results.

Cheers,
CK Chia

Warm Welcome to Our Newest Team Members

Hi everyone,

I'm Tea Hong Liang, and I've just joined CoreTech Integrated Singapore as an International Support Engineer.

I bring over a decade of experience as a Field Service Engineer in electronics manufacturing, specializing in on-site troubleshooting and technical problem-solving. In my new role, I will focus on diagnosing and resolving technical issues, implementing effective solutions, and providing timely support and guidance to our clients. I am also available for international assignments, particularly to India, to deliver direct technical assistance and strengthen client relationships.

Outside of work, I'm passionate about traveling and immersing myself in different cultures. I value the opportunity to connect with people from diverse backgrounds, and I believe these experiences will enrich both my personal and professional growth.

I look forward to contributing my expertise, collaborating with colleagues, and continuing to learn and grow here at CoreTech Integrated Singapore.

Best regards,
Tea Hong Liang
